Date: February 5, 2026

Dr. Anita Gupta
Chief Executive Officer
MediSync Devices Inc.
7700 Congress Avenue, Suite 220
Boca Raton, FL 33487

Re: Patent Infringement — U.S. Patent Nos. 11,234,567 and 11,345,678

Dear Dr. Gupta,

This letter constitutes a formal demand that you and/or your organization immediately **cease and desist** all unlawful activity relating to U.S. Patent No. 11,234,567 ('Wireless Biometric Sensor Array for Continuous Patient Monitoring') and U.S. Patent No. 11,345,678 ('Adaptive Signal Processing Method for Wearable Health Devices'), both owned by our client, VitaWave Medical Technologies LLC. This letter is sent on behalf of our client, the party whose rights have been violated, and is intended to put you on formal notice of these violations.

FACTUAL BACKGROUND

MediSync's 'SyncPulse Pro' wearable monitor, launched in November 2025, practices Claims 1-5 and 12-14 of the '567 patent and Claims 1-3 and 8-10 of the '678 patent. A detailed claim chart prepared by our technical experts is available upon request. The SyncPulse Pro device uses an identical wireless sensor-array architecture and implements the same adaptive noise-filtering algorithm described and claimed in our client's patents.

LEGAL BASIS

The conduct described above constitutes a violation of 35 U.S.C. §§ 271, 281, 283, and 284. These laws provide for significant civil remedies, including injunctive relief, monetary damages, and recovery of attorneys' fees and costs.

DEMANDS

In light of the foregoing, we hereby demand that you take the following actions on or before **March 22, 2026**:

1. Immediately cease the manufacture, marketing, sale, and distribution of the SyncPulse Pro device and any other products that infringe the asserted patents.
2. Recall all SyncPulse Pro units from distribution channels and retail partners.
3. Provide a full accounting of all units manufactured, sold, and currently in inventory, along with revenue generated to date.
4. Enter into a licensing agreement with VitaWave Medical Technologies on commercially reasonable terms, or alternatively, pay a lump-sum royalty of \$1.2 million covering past infringement.
5. Agree to submit to an independent technical audit to confirm cessation of infringing activity.

CONSEQUENCES OF NON-COMPLIANCE

If MediSync Devices does not respond satisfactorily by the deadline, VitaWave will file a patent-infringement action in the United States District Court for the Southern District of Florida, seeking permanent injunctive relief, treble damages for willful infringement, pre- and post-judgment interest, and attorneys' fees.

Nothing in this letter shall be construed as a waiver of any rights or remedies available under applicable law, all of which are expressly reserved. This letter is written without prejudice to any and all rights, remedies, and claims, whether known or unknown, that may exist now or in the future.

Please direct your written response to the undersigned at the address above no later than **March 22, 2026**. Sincerely govern yourself accordingly.

Sincerely,

Robert Tannenbaum, Esq.
